

***LRPC-09-633-BC***

633 won 1<sup>st</sup> Fed Charters Towers 650 miles in 2010, hard north route, bred & raced by John Hauser. D.Ince/C.Walker/A.Goodger blood.

633 was purchased by the late Mal Coulsten & bred 2<sup>nd</sup> place GC50000 feature race – north route, for Coulsten & van der Linden & has since bred 3<sup>rd</sup> Fed Collarenebri & other minor placed fed & club birds for myself along with dozens of birds to fly 500 & 600 miles for me. I have 5 children & 2 grandchildren in stock from 633 that have flown very well for me over several seasons.

633 still handles well & filled all eggs in 2018/2019 breeding season.
